Q 12	If you need more space, or have any other general comments, please leave them here
	I've found this form confusing, especially not being able to access the plan as I'm trying to comment. This has prevented me being able to write detailed comments and there is a lot in the plan which needs rethinking.

<p>There is a lack of urgency in preparing for the droughts and floods climate change is forcing on us. Lack of urgency over the the need for better use of grey water and better sewage treatment and more drinking water storage.</p>
