| Q4 | Feedback/Comments | |
| | I am not supportive of the medium density zone as it stands. I've seen this before in other places where I have lived (overseas), and this destroys the look and feel and impacts sense of place. Privacy, over shadowing / lost sunlight and character loss are real issues. The sorts of setbacks and restrictions needed to enable an area like South Hill to retain its character while accommodating higher density living are not compatible with developers motivations and will be bypassed. Best to simply remove the risk altogether. | |
