Q4	Feedback/Comments	
	Indigenous biodiversity is important and I am glad to see that you hope to take care of it. You can raise the level of support by marketing it an inclusive exploratory way engaging the public.

Q6	Feedback/Comments	
	Yes we must look after our riparian areas, they are too often forgotten. Intensive farming run-off must be dealt with. Riparian protection must be at least 5m from the "normal" edges. There will be more storms and floods to come. Build natural resilience with soft landscaping, and using native species appropriate to the district.
