Building new toilets

Please provide any memoranda, reports, or analyses concerning the possibility and/or costs of refurbishing the existing toilets at Awamoa Park rather than building new toilets.

Council Officers have reviewed your request and have collated the answers in red below with the above attachments:

In 2017 council considered a plan forward for the provision of public toilet and dump station facilities for the next 10 years.

<https://www.waitaki.govt.nz/files/assets/public/files/our-facilities/public-toilets/plan-for-toilets-and-dump-stations-2018-2028.pdf>

There has been no assessment made on refurbishing the existing facility. There are issues with the current facility and it is in our view that a new facility would be better than the existing facility.

Assessments that have been undertaken area attached. To keep it in context the survey document was done in 2009.

The funding from MBIE was for a new facility.
