Oamaru 9444
Waitaki District
New Zealand

Subject: Waitaki WiFi enquiry.

How many people connect to the Oamaru one per month? What is the average connection (time connected or data usage). Who is managing the network etc?

Month	Year	Unique Devices	Total Sessions	Average Duration
May	2023	1298	14161	7 Minutes
June	2023	1097	12321	9 Minutes
July	2023	1175	11088	9 Minutes

This is the information for the last three months, including the current month, on usage for the two sites that are in Oamaru (Harbour, North Oamaru).

In today's environment individuals can have multiple devices including watches, phones, iPads and computers which have an ability to connect to WIFI. As we do not require users to provide personal information or login credentials to connect, we cannot link these devices to specific individuals. As an alternative we have provided the number of unique devices that have connected each month.

Network is a system that is managed by the Waitaki District Council's IT department.
