**Certificate for Public Use - Form 15**

If the public uses all or part of your building, and you want them to access it before your building work has been signed off as complete, you can apply to your council for a certificate for public use. You can only apply for a certificate for public use if a building consent has been granted but the code compliance certificate has not been issued. You will still need to apply for a code compliance certificate once the building work has been completed. Section 363A, Building Act 2004

[Start →](#)

**Code Compliance Certificate - Form 6**

Application for a code compliance certificate (CCC). The CCC is a formal statement from your council that building work carried out under a building consent complies with that building consent. Section 95, Building Act 2004

[Start →](#)

**Extension of Time**

You need to start your building work within 12 months of receiving your building consent or your consent will lapse. If you need an extension, talk to your council before the 12-month timeframe is up. If the consent has lapsed and you still want to do the work, you will have to re-apply for consent.
