	NFL-O1 Protect Outstanding Natural Features and Landscapes, Significant Natural Features, and Rural Scenic Landscapes from inappropriate activities
Q4	Feedback/Comments
	The guiding or supporting demarcation zones shown on the accompanying map overlay identifying the Significant Natural Landscapes are all encompassing and appear arbitrary without any recognition to actual detail or profile of the landscape intended to be protected nor does it take into account existing activities that have degraded the landscape values within this zone. This unfairly has the potential to limit or require unnecessary justification to undertake otherwise permitted activities in non sensitive areas or heavily modified areas within this overlay zone.
