Q1	Select the chapter you want to provide feedback on	
	Subdivision	
Q2	In general, to what extent do you support the contents of this chapter?	
	Neutral	
Q3	Objective/Policy/Rule/Standard reference:	
	SUB-S6	
Q4	Feedback/Comments	
	<p>Subdivision Standard SUB-S6 should be amended require all allotments to have provision of fibre optic cable in the General Residential Zone and the Medium Density Residential Zone.</p> <p>The fibre network built under the government's Ultra Fast Broadband (UFB) project ensures that 87 percent of New Zealanders will receive access to world-class connectivity, with up to 1 gigabit broadband speeds. The UFB programme, due to be completed this year includes the following towns within the Waitaki District: Duntroon, Hampden, Kurow, Maheno, Moeraki, Oamaru, Omarama, Otematata, Palmerston, Taranui/Kakanui. These towns encompass almost all of the General Residential and Medium Density Residential zoned land within Waitaki District.</p> <p>Amending SUB-S6 to ensure that all allotments in the General Residential and Medium Density Residential zones have provision for fibre optic cable connections will ensure that populations within these areas continue to have access to world-class connectivity.</p> <p>Retaining SUB-S6 as drafted for all zones other zones (excluding the General Residential and Medium Density Residential zones) is appropriate as other technologies may be more suitable for providing telecommunications services in these areas.</p> <p>Please find a proposed amendment to SUB-S6 attached to this submission. Chorus is happy to make staff available to Council to discuss this matter further if requested.</p>
