	Hi We own 39 Rocklands Road, Totara 9492,

We are all for preserving the ridge line view and re-establishing native forest on our piece of land however we would like to request moving SNF027 off the existing paddock and small pine forest block. As possible future building site on the edge of this area. The area below the red line does not affect the view of the ridge due to the nature of the steep slope coming down from the ridge, this is can be viewed on google earth, or doing a drive by of the property from rocklands road.

We also only heard through word of mouth that landowners of proposed significant natural feature areas received a notification letter - We did not, can this please be rectified so we receive any important documentation in the future.

Thanks for taking the time to read our comments.

Regards

Felicity Morris and Richard Wing.

Rocklands Ridge SNF027 suggested adjustment
