Q1	Select the chapter you want to provide feedback on
Q2	In general, to what extent do you support the contents of this chapter?
Q3	Objective/Policy/Rule/Standard reference:
Q4	Feedback/Comments
	<p>Hello, Please see below for my personal feedback on the draft district plan. Thank you for the opportunity to provide feedback I am pleased to see the proposed recognition and associated protections for Ecosystems and Indigenous Biodiversity, Natural Character, and Natural Features and Landscapes. I hope the proposed District Plan when developed will retain the areas shown in draft and that through your consultation additional areas may be recognised too. I encourage Council to resource fully the implementation and enforcement of the measures proposed as the plan will only be effective if there is education, monitoring and enforcement where necessary. It is great to see climate change acknowledged throughout the document as a reality and something that must be considered in any forward planning. The focus on adaption however misses the opportunity to voice how Council's approach to land management can have a role in limiting climate change itself. The general provisions outlined in the Coastal Environment section are positive for protecting our unique coastal environments and associated species. What happens on the land will impact on our oceans so I encourage Council to take an active role in managing coastal land in order to protect our marine environment. Thank you, Chloe Searle</p>
