Q1	Select the chapter you want to provide feedback on
	Coastal Environment
Q2	In general, to what extent do you support the contents of this chapter?
	Strongly oppose
Q3	Objective/Policy/Rule/Standard reference:
	CE-P6 Improve the natural character of the Coastal Environment
Q4	Feedback/Comments
	<p>The overlay of Coastal Environment is over our entire farm. All the policies will not apply to us but I've no idea how to find out which ones will. The below one will definitely.</p> <p>2. consider incentives for landowners within Coastal Areas of Degraded Natural Character where they:</p> <p>a) cease plantation forestry, quarrying activities, or pastoral farming;</p> <p>b) remove weeds;</p> <p>c) plant indigenous vegetation;</p> <p>d) restore wetlands; and/or</p> <p>e) fence an area of land to promote natural regeneration.</p> <p>A large area of our farm has an overlay for Degraded Natural Character. This is only one of several overlays on our farm. We farm to provide pasture for our animals. By providing incentives to cease pastoral farming etc once again looks like a land grab with no payment for the land. What are the incentives? This should state exactly what the incentive is being offered as once the plan comes into place it could be anything. Will it replace loss to our income. We purchased our land, paid for it so we could use it for farming. This seems to be being taken away from land holders.</p>
Q5	Objective/Policy/Rule/Standard reference:
	CE-R1 Planting vegetation within the Coastal Environment
Q6	Feedback/Comments
	<p>All zones Activity status: Permitted</p> <p>Where:</p> <p>PER-1</p> <p>The planting is indigenous vegetation;</p> <p>or</p> <p>PER-2</p> <p>The planting is amenity planting;</p> <p>or</p> <p>PER-3</p> <p>The planting is undertaken by Waitaki District Council, Otago Regional Council, Canterbury Regional Council, or their agents, for the protection or restoration of natural defences against coastal natural hazards.</p> <p>How does this effect winter feed planting? Is it a council permitted activity? I don't think so by the reading of the above.</p>

	Would this mean that resource consent would be required. Whenever consent is applied for there is always payment required to council. Again use of our farm is being taken away from us.
Q7	Objective/Policy/Rule/Standard reference:
Q8	Feedback/Comments
Q9	Objective/Policy/Rule/Standard reference:
