Q4	Feedback/Comments WDC 10 year plan Submission regarding housing and farming activities in Areas of natural landscapes. The upper Awamoko Valley and side valleys known in the past as Island Cliff had about 14 small houses a blacksmith, school and railway station. Today there are only one or two left. The surrounding flat table lands must be kept free of development for farming. This significant landscape valley will need to be built and settled in again. With the right regulations this future development would enhance and not detract from the uniqueness of the valley.
