Official LGOIMA Response:

Council Officers have reviewed your request and have collated the answers below:

Figures as extracted from reports and claims for the period 1 April 2019 – 31 March 2020

1. **Total volume or weight of waste collected** :227.24 tonnes collected from councils transfer stations and recycling hubs by our contractor. I do not have any data on what the contractor did with the waste. It can be assumed it ended up in a landfill somewhere.
2. **Total volume or weight of waste taken to landfill** : 110 tonnes received at councils Palmerston Landfill
3. **Total volume or weight diverted from landfill** :3,995 m3 collected from councils transfer stations and recycling hubs and taken to the Waitaki Resource Recovery Park (WRRP) for processing. This figure assumes all the recycling taken to WRRP was recycled.

This information represents only Council controlled waste and recycling in the Waitaki district. There are 3 commercial operators Waste Management, WasteCo and Awamoa Bin Services that provide residential and commercial waste and recycling services in the Waitaki District.
