250	Irrigation Purpose	North Otago Irrigation Company Limited	Various Refer to Table 1 at the end of this appendix document for conditions.	Has been given effect to.	Various
-----	--------------------	----------------------------------------	----------------------------------------------------------------------------------	---------------------------	---------

Note 1 All legal roads are deemed to be designated.

Note 2 All designations shall have underlying zones.

Note 3 The Designation provides for Transit New Zealand, either itself or through its agents, to control, manage and improve the State Highway Network including planning, design, research, construction and maintenance relating to all land within the designation. Such activities may also involve, but not necessarily be limited to, realignment of the road and alterations to its physical configuration with the limits of the designation.

The additional notation **LAR (Limited Access Road)** has the effect of restricting property accesses to the State Highway to those registered crossing places shown on plans held by Transit New Zealand, Dunedin. The approval of Transit New Zealand is required before any such crossing place may be altered in any way.

The purpose of the **LAR** restriction is to control the position and frequency of property accesses to the State Highway so that the safety and efficiency of the road can be maintained.

Where land adjoining the limited access road is being subdivided provision must be made for each allotment to have frontage and access to an alternative legal road.

Should the State Highway designation be removed in whole or in part as a result of a realignment of the State Highway, the land directly affected by that action shall assume the planning status of the land immediately adjacent and contiguous unless the Council, by way of a plan change, determines otherwise.

TABLE 1**CONDITIONS APPLYING TO DESIGNATION #250**

1. Except where modified by specific conditions set out below or by conditions contained within an approved Outline Plan completed in accordance with Section 176A of the RMA, the irrigation scheme shall be operated and maintained in accordance with:
 - (a) The operational areas defined by the designation survey plans;
 - (b) The Project Works Description and Schedule of Works; and
 - (c) The terms and conditions of existing resource consents as issued by the consent authorities and/or any resource consents subsequently issued by the consent authorities.
2. Pursuant to Section 184 of the Act, this Designation shall be included in the District Plan and not lapse for a period of five years from the date of this inclusion. On the expiry of that period, the Waitaki District Council ("the Council") shall determine whether the Designation has been given effect to or substantial progress to that effect has been made.
3. If not exempted by Section 176A(2), the Requiring Authority shall submit an Outline Plan to the Council before commencing any additional construction works within the Designation area. This requirement will not apply to those works which are permitted activities in accordance with the District Plans or otherwise authorised by any existing or future resource consents.
4. Details of any approvals for new works from other consenting agencies shall be provided to the relevant Council before works commence.
5. The Requiring Authority shall submit to the Council reports in relation to any adverse environmental effects that may occur either having resulted from works undertaken or envisaged as likely due to proposed works in that District, and how any such effects either have or will be mitigated (including timeframes for such mitigation).

Operational

6. Any earthworks are to be undertaken in a manner that prevents:
 - (a) Excessive, objectionable and/or offensive dust being discharged to the air beyond any site of earth disturbance; and
 - (b) Any discharge of sediment to waterbodies and waterways as a result of any earth disturbance.
7. Any sites where earth disturbance is required or spoil is deposited shall be promptly covered as part of the construction works and otherwise rehabilitated with vegetation immediately to prevent the spread of dust to the air or discharge of sediment to waterbodies and waterways. No pest plants are to be used in the revegetation process.
8. Hours of work on specific maintenance works within the Designation area shall as far as practical and except in the case of emergency or urgent need be restricted as follows:
 - (a) 0700 hours to 2200 hours Monday to Friday
 - (b) 0700 hours to 1900 hours Saturday

This rule shall not apply to day to day operation of the Scheme.

9. Any new works associated with the designation shall be undertaken in accordance with NZS 6803:1999.

Health & Safety

10. The Requiring Authority shall operate the Scheme in accordance with a Health and Safety Management Plan. This shall cover procedures to be adopted in terms of both day to day operation of the Scheme and specific maintenance and upgrade projects, and how compliance with the Plan will be enforced. Such a plan shall in relation to the District to which it applies be available for inspection by Council staff at all times.
11. The Requiring Authority shall ensure that appropriate signage is maintained to warn staff, visitors and the public generally of all potential hazards throughout the Designation areas. Such signage shall be maintained in a tidy and up to date state. No sign shall exceed 3.0m².
12. Public access shall be restricted to construction areas and any sites within any Designation area identified as hazardous at all times.
13. The Requiring Authority shall maintain a Hazardous Substances/Spill Contingency Management Plan in relation to pump stations and electrical installations. This shall cover procedures to be adopted in terms of both the storage and day to day use of such substances, and how compliance with the Plan will be enforced. Such a plan shall be available for inspection by Council staff at all times.
14. All fuel, oil and hazardous substances storage areas shall be provided and maintained in accordance with all statutory or regulatory requirements that may be applicable.

Environmental

15. Should it be necessary to modify, damage or destroy any archaeological site or place recognised as having historic heritage values, the Requiring Authority shall commission an archaeological and/or heritage impact assessment from a qualified archaeologist or heritage professional. Such an assessment shall guide the Requiring Authority and Council with respect to how the work is carried out, statutory procedures to be followed and liaison over it.
16. The Requiring Authority shall consult with Kai Tahu ki Otago Ltd Consultancy (as agent for local Iwi, being Te Runanga o Ngai Tahu and Moeraki Runanga as the local Paptipu Runanga) with respect to works involving any site of significance to Maori within the designation area. Such sites include:
- (a) Any Topuni, Statutory Acknowledgement Areas or Nohoanga Sites as specifically provided for in the Ngai Tahu Claims Settlement Act 1998;
 - (b) Any sites identified within the Waitaki District Plan, and/or Regional Plan: Water for Otago as being of significance to Maori; and
Any sites identified as being of heritage and/or historic significance generally, but due to a principally Maori or Maori-related associations.
17. An accidental discovery protocol shall apply with respect to the potential discovery of hitherto unknown archaeological sites. Specifically:
- (a) In the event of *Koiwi Tangata* (human bones), *taonga* (treasured artefacts) and/or other material known to be or suspected of being of archaeological or other historic heritage significance, site works shall cease immediately;
 - (b) The Requiring Authority shall contact the New Zealand Historic Places Trust (NZHPT) and Kai Tahu Ki Otago Ltd Consultancy (as initial Iwi contact for Te Runanga o Ngai Tahu and Moeraki Runanga), with the New Zealand Police to also be notified should the discovery include *Koiwi* (human remains of any kind);
 - (c) Works shall not recommence until clearance is given by the NZHPT. The NZHPT shall only give such clearance following consultation with Kai Tahu ki Otago Ltd and the

- Police (if involved);
- (d) The Requiring Authority shall cooperate with the NZHPT in terms of allowing it and other agencies involved to inspect the site, remove any materials, monitor further earthworks and avoid specific areas; and
 - (e) The Requiring Authority shall ensure that staff and contractors are made familiar with the accidental discovery protocol and any site-specific protocols subsequently requested by the NZHPT as the result of specific discoveries.

Access

18. Activities that may affect the operational requirements or integrity of the irrigation scheme by the parties other than the Requiring Authority are prohibited in relation to the irrigation scheme infrastructure and works following without first obtaining the express permission of the Requiring Authority. The restricted areas include:
- (a) Those Scheme items listed 1-35 in this Designation, as also shown on accompanying Plans;
 - (b) Those bed and banks areas of the Waitaki River, Bortons Pond, canals and water containment areas and Waiareka Creek shown on Plans accompanying the Designation.

Access to these sites and works shall at no time be refused to the Police and/or emergency services for the purpose of responding to emergencies and/or carrying out their normal duties of care, or Regional or District Councils and/or any other agencies requiring access for compliance monitoring purposes.

19. In terms of Scheme items 1, 2, 3 and 35 of this Designation, the following access conditions shall apply:
- (a) The Requiring Authority may, following consultation with and agreement of the Council, prevent public access to all or designated parts of those areas. Any such restriction must be justified on the grounds of operational logistics or public safety, with any closure of access to follow a minimum 10 working days public notification of the intention within the Oamaru Mail and the Otago Daily Times. Such notice shall detail the extent of the area involved, the reasons for and extent of public exclusion, and its likely duration;
 - (b) No such closure shall exclude the Police and/or emergency services for the purpose of responding to emergencies and carrying out their normal duties of care, or Regional or District Council officers' access or access by any other agencies for compliance monitoring purposes;
 - (c) Public notification requirements under clause (a) may be given retrospectively in cases of emergency or other unforeseen circumstances which threaten public safety.
