

Important Notice: Water Main Renewal Works

September 2018

Stage 2 Water Main Renewals – South Hill Area

Dear Resident

Whitestone Contracting Limited, under contract to Council, will soon be renewing water mains in the South Hill area.

This work is due to start in late September 2018 and should be completed by June 2019.

Water mains in the South Hill area are being renewed in four stages. Stage 1 began in February 2017 and was recently completed.

The attached map shows the areas that will be affected during each stage of work, including this one (Stage 2).

Once completed, the main renewals will help improve water quality and pressure in the South Hill area and will also reduce the risk of supply failure in the future.

How this work may affect you

If you live in or around the area where work will be carried out, there may be some disruption to your water supply and vehicle access for short periods of time whilst work is underway.

Whitestone Contracting will be working on 100 metre stretches of road at any one time and will do everything they can to minimise disruption to residents.

If you have any special requirements for water or access to your property - for example, you operate a business in the area or have health issues - we will ensure special measures are put in place for you.

Road maintenance

The water main renewal works will cause some surface damage to roads in the area. These roads will be fully repaired once the renewal works have been completed.

Communication

Approximately two weeks before work is due to start in any particular area, affected residents and businesses will be contacted by Whitestone Contracting.

If you live or run a business in the affected area and have requirements for vehicle access or water supply during a specified work period, you can contact us prior to work commencing to discuss ways we can assist you.

General information about the work and progress will also be posted on our website:

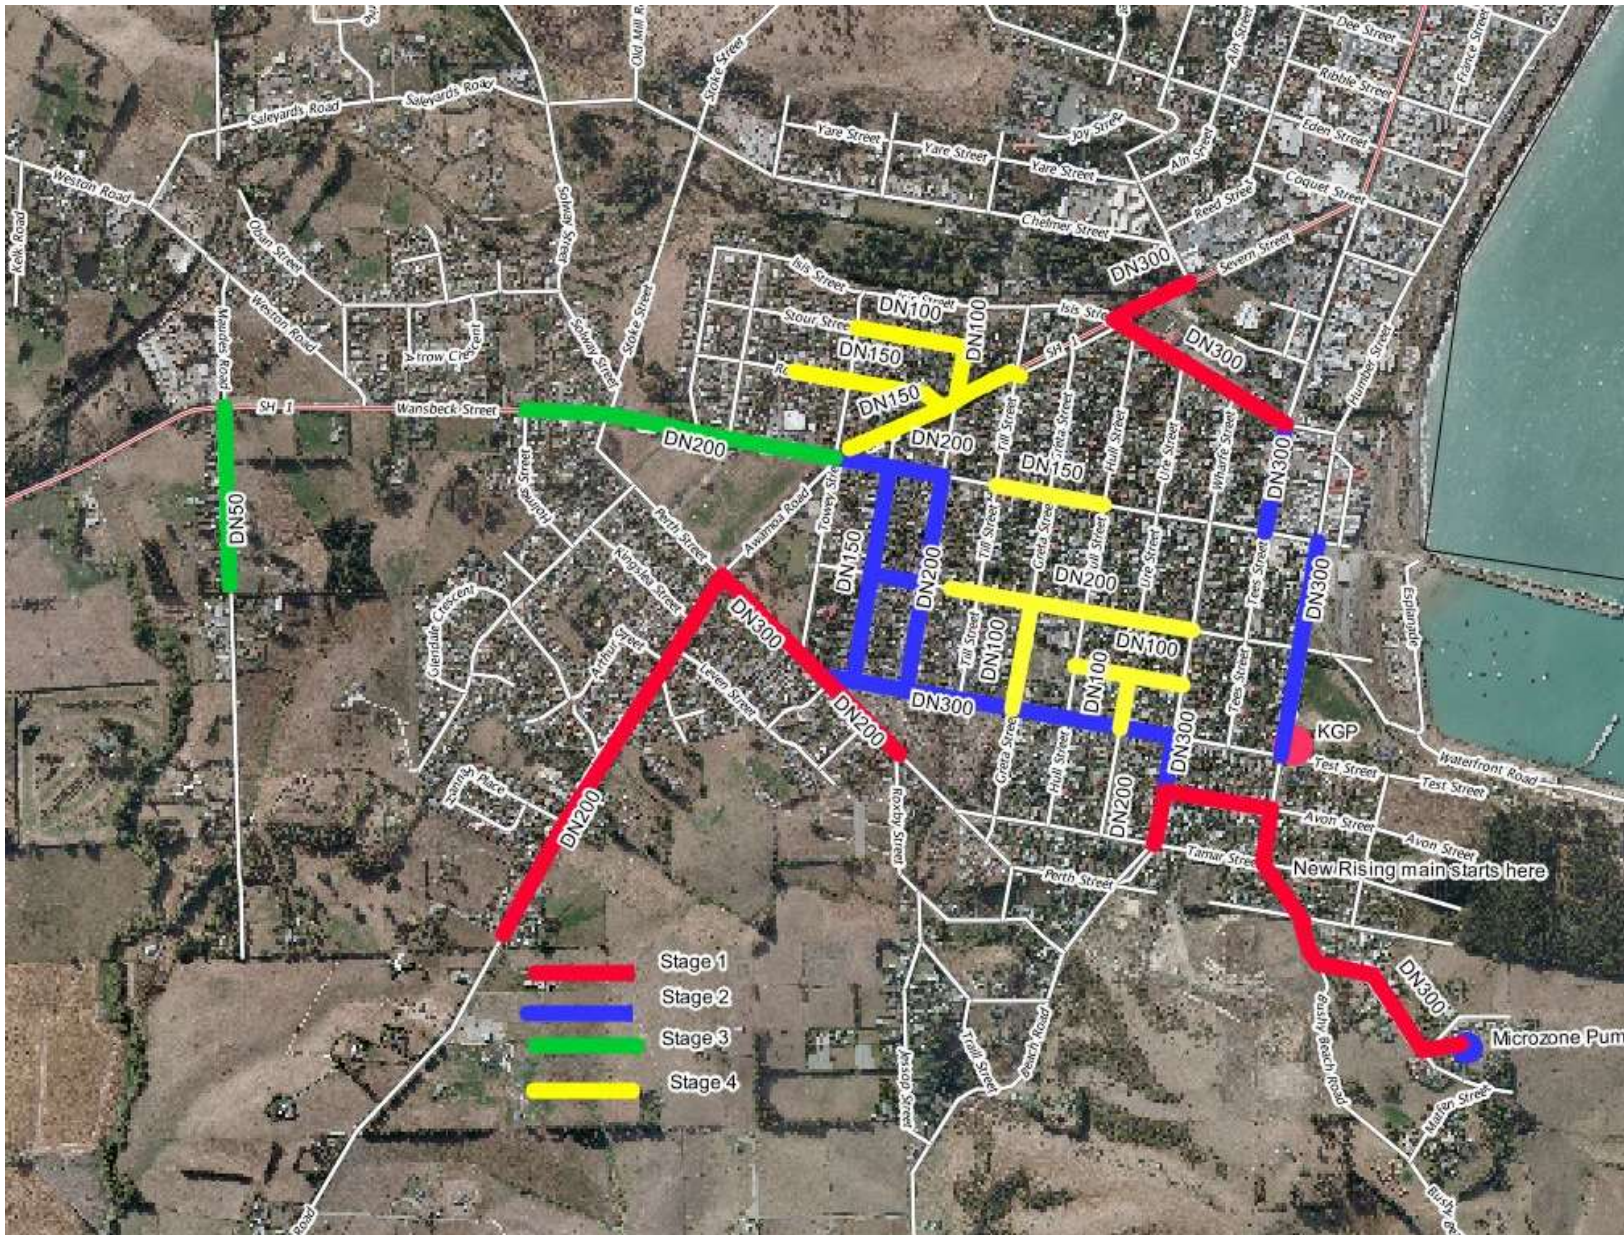

www.waitaki.govt.nz/our-district/current-projects and on our Facebook page.

Enquiries about the project can be made by calling Council on **03 433 0300**.

Kind regards

Waitaki District Council Water Unit
